Mileage

Data on the fixed mileage and its changes was collected from various sources

Autoistorija.It insight:

Our data is sourced from various official data sources, but we still recommend performing a professional car inspection with specialists.

Traffic accidents/damages

Data collected from various sources on fixed traffic incidents/damages

Great! We did not find any official records of damage or traffic accidents in this report.

This is often a good sign, indicating that the vehicle may not have been involved in accidents or serious incidents and was used responsibly.

However, it is important to note that not all events are always recorded in official databases. Some incidents may be unrecorded or unavailable in our information sources. The data is provided based on third-party information, so its absence in the report does not guarantee that no incidents occurred.

Therefore, as with any used car, we recommend additionally assessing the condition of the vehicle, speaking with the seller, or consulting with a specialist.
