Iš įvairių šaltinių surinkti duomenys apie fiksuotus eismo įvykius, žalas ar transporto priemonės defektus

Puiku! Šioje ataskaitoje neradome jokių oficialių įrašų apie žalas ar eismo įvykius.

Tai dažnai yra geras ženklas, rodantis, kad transporto priemonė galimai nebuvo patekus į avarijas ar rimtesnius incidentus ir buvo naudojama atsakingai.

Vis dėlto svarbu pažymėti, kad ne visi įvykiai visada patenka į oficialias duomenų bazines. Kai kurie incidentai gali būti neužfiksuoti arba neprieinami mūsų informacijos šaltiniuose. Duomenys pateikiami remiantis trečiųjų šalių informacija, tad jų nebuvimas ataskaitoje nereiškia garantijos, kad įvykiai tikrai nevyko.

Todėl, kaip ir su bet kuriuo naudotu automobiliu, rekomenduojame papildomai įsivertinti transporto priemonės būklę, pasikalbėti su pardavėju arba pasikonsultuoti su specialistu.
